

ARMED FORCES MEASUREMENT BLANK - SPECIAL SIZED CLOTHING FOR MEN

(Use a separate form for each item.)

Privacy Act Statement

AUTHORITY: 10 USC 9832, 37 USC 418, and EO 9397.

PRINCIPAL PURPOSE(S): Use of Social Security Number is necessary to make positive identification of the individual and records associated with obtaining special measurement uniform clothing.

ROUTINE USE(S): Used to record individual member's measurements which are required to process special orders of uniform clothing for individuals who cannot be fitted with normal catalog sizes or alterations thereto. Information contained hereon is routinely disclosed to the Defense Personnel Support Center for each clothing item required and may be disclosed to any DOD component and, upon request, to other Federal, State, and local agencies in pursuit of their official duties. It may be used for other lawful purposes including law enforcement and litigation.

DISCLOSURE: Voluntary; however, failure to provide the information would preclude the orderly maintenance of property accounts or prevent the issuance of clothing items otherwise authorized under the Armed Forces Clothing Monetary Allowance Policies and Regulations.

INSTRUCTIONS

FOR BODY MEASUREMENTS - Enter exact measurements of man, not of an old garment. Hold tape firmly, never loosely. If any measurements are abnormal, place "OK" beside measurement.

FOR COATS - Take all snug, not tight measurements over dress shirt.

FOR SLEEVES - Arms must not be bent, but straight down at sides and with coat off. Start the tape at the center of the back of the neck (measure total cross shoulder distance and divide by two) and pass the tape squarely over the top of the shoulder (not to front or back), then straight down the arm to the length desired. The length desired by most men is about one inch below the center of the wrist.

FOR TROUSERS - Take waist measurement over shirt, not top of trousers.

FOR GLOVES - Include an outline drawing both of the right and left hand with notations as to fitting problems such as short or long fingers, thick palms, etc.

FOR HEADWEAR - Using measurements taken, measure across top of temple continuing in a straight line around head.

FOR WEIGHTLIFTERS - Measure shoulders, underarm to top of shoulder, biceps, and forearm
